

APPLIANCE REPAIR SERVICE CHARGE

5/7/92

1

1

1.0 POLICY

1.1Charges as described in §2.0 of this schedule shall be levied for each call for residential, commercial, or industrial appliance repairs.

1.2The initial Appliance Repair Service Charge shall be applied only one time to any combination of jobs performed at the same time in the same residential, institutional, commercial, or industrial establishment. All charges thereafter shall be at a rate set for each 5-minute period, including return calls.

1.3If the problem confronted by an Appliance Electrician requires emergency trouble service (for example, fuse or circuit breaker problem), he/she shall make the repair and the trouble call service charge (Schedule 100) shall apply.

1.4For fire or damage jobs, whether or not insured, the initial inspection and estimate of costs shall be covered by the Service Charge and Labor Charge, and the Labor Charge plus parts shall apply thereafter.

1.5For installing warranty parts furnished by a dealer, whether obtained by the Department or by the customer, the Service Charge and Labor Charge shall apply.

2.0 CHARGES

2.1Service Charge (travel time and 15 minutes of labor) \$45.95 + tax

2.2Labor Charge (all diagnostic and repair time charged in 5-minute increment or portion thereof) \$7.00 + tax
